

# Virtual Photographer

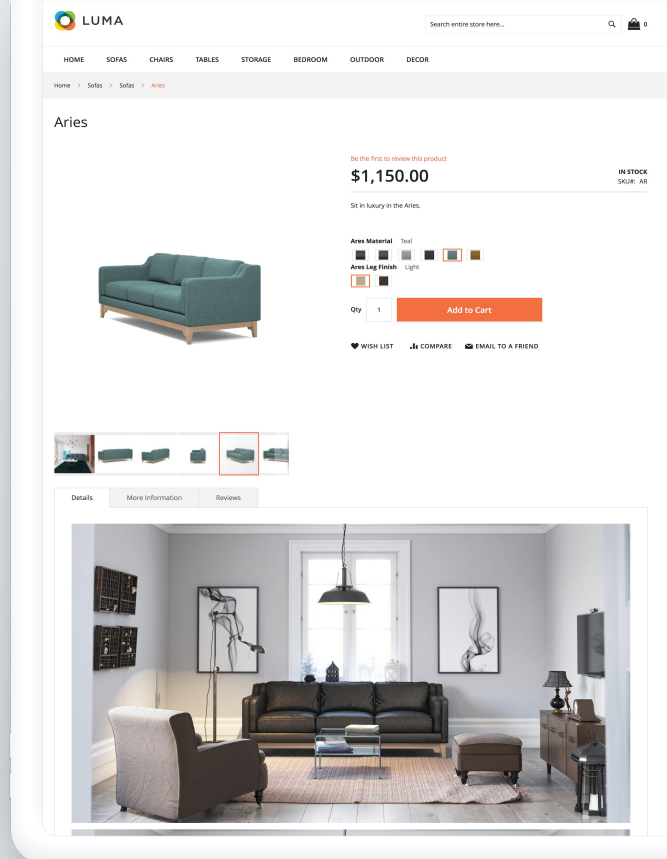

If you have a large product portfolio with customizable elements, you need to generate a massive number of beautiful images. Virtual Photographer enables you to do this without sacrificing quality or snapping a single picture.

## Benefits:

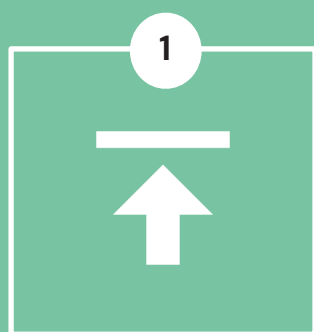

- Create a more engaging product experience
- Enable customization and configuration with 2D images
- See up to 40% increase in conversion

## Platform features:

- ERP/BOM integration
- Built-in asset management
- Seamless eComm store integration
- Order tracking

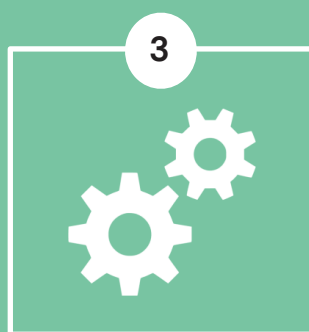

## How it works

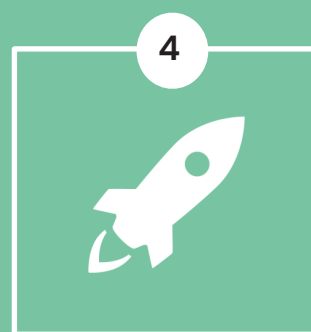

Upload data & assets

Review samples

Generate images in bulk
